AgnoShin

SECURE, OPTIMIZE, AND ENHANCE HUMAN INTELLIGENCE

AUG - 2026

AGNO-DIGEST

Celebrating the Spirit of Onam

Onam is a celebration of unity, prosperity, gratitude, and togetherness. At **AgnoShin**, the festival offers an opportunity to come together, appreciate the bonds we share, and celebrate the spirit of new beginnings.

This Onam celebration brought moments of joy, connection, and cultural spirit, reflecting the values that make every celebration meaningful.

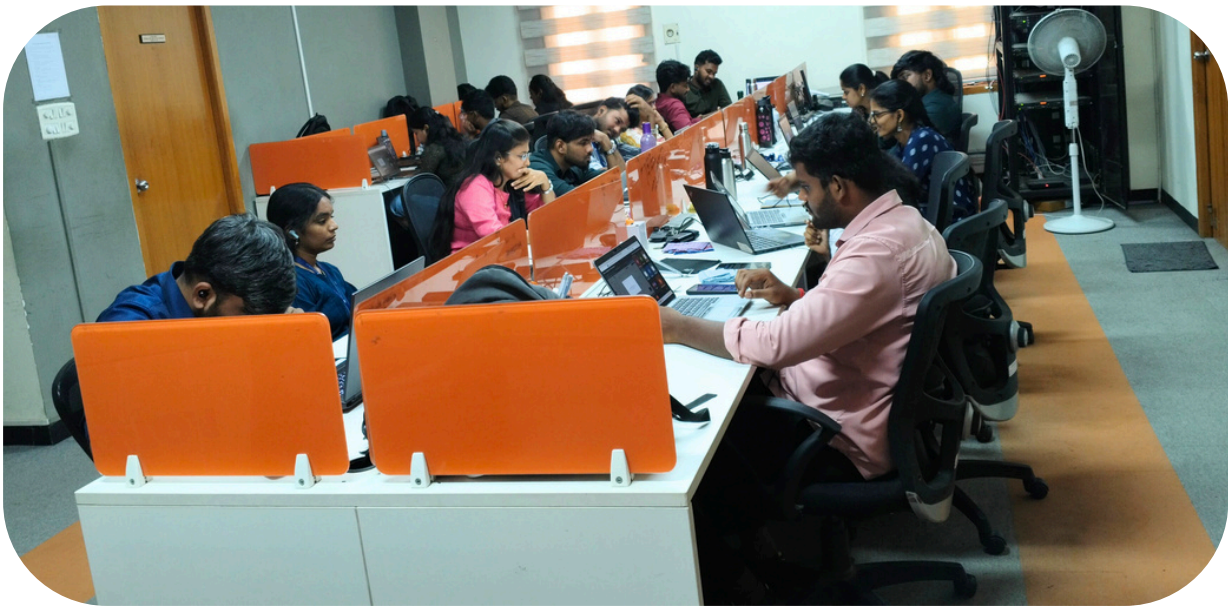

AI HACKATHON 2026

What if an idea could change everything?
At **AgnoShin Technologies,** we turned that question into action.
On 31 August 2026, our AI Hackathon brought together passionate minds to think, build, collaborate, and innovate. From brainstorming bold ideas to developing intelligent solutions, participants tackled real-world challenges with creativity, technology, and teamwork.
The event was filled with rapid problem-solving, innovative prototypes, collaborative learning, and the excitement of turning ideas into impact.
More than a hackathon, it was a celebration of curiosity, creativity, and the power of AI to build what's next.
THINK. BUILD. INNOVATE.

New Clients Parterned!

New client onboarded! GenAgno welcomes **Azonix Tech Pvt. Ltd.** as our newest partnership client, excited to grow together and deliver great results.

CX Industry Insight

Why Customers Are Done Repeating Themselves

Customers today expect more than fast responses—they expect continuity.

According to **Zendesk's CX Trends 2026** research, 74% of consumers find it frustrating to repeat their story to different agents. When customers have to explain the same issue multiple times, even a quick resolution can feel like a poor experience.

AI is changing this. Memory-rich AI can connect previous conversations, customer preferences, interaction history, and ongoing issues, allowing businesses to deliver more personalized and seamless support.

But remembering customer information is only part of the equation. Businesses must also ensure that data is accurate, secure, and responsibly managed. When AI has the right context, human agents can spend less time gathering information and more time solving problems.

The CX Takeaway :

The future of customer experience isn't simply about faster answers. It's about making customers feel known, understood, and remembered.

In 2026, the best AI experiences may be the ones where customers don't have to start the conversation from scratch.

Our CSR Engagement

Freedom to Dream. Opportunity to Grow.

This Independence Day, AgnoShin, along with the Meiporul Chennai Foundation Trust, celebrated in Udumalpet by planting saplings and spending meaningful time with young children.

A day of care, smiles, and shared moments, reminding us that small actions can create lasting impact.
Let's continue to nurture nature, empower young minds, and give back to our communities.

Team REVIEWS

Agalyaa

Intern

AgnoShin Technologies offers a supportive and encouraging workplace where employees can continuously learn and develop their technical knowledge. The team members are approachable, helpful, and cooperative, creating a friendly work environment. It is a great place for both freshers and experienced professionals who are looking to improve their skills and build their careers.

Meenachi

Intern

AgnoShin Technologies offers a supportive and professional work environment with plenty of opportunities to learn and develop new technical skills. The team members are approachable and helpful, making it comfortable for freshers to ask questions and gain practical experience. Overall, it is a great place to build confidence, improve your knowledge, and grow professionally.

WELCOME
TO THE TEAM!

We're thrilled to have you as part of our growing family. Your skills, ideas, and passion will make a real impact, and we can't wait to achieve great things together.

Let’s innovate, collaborate, and make a difference!

Your Monthly Health Boost!

Topic: Sitting All Day? Your Body Is Keeping Score

How often do you realize you've been sitting at your desk for hours without moving?

- Long periods of sitting can leave your muscles inactive and may contribute to stiffness, poor posture, and reduced circulation.
- Even short movement breaks during the workday can help you feel more refreshed and reduce the physical strain of prolonged sitting.
- You don't need a gym session every hour — standing up, stretching, walking to refill your water, or taking the stairs can all add movement to your day.

Quick Fact:
Your body isn't designed to stay in one position for hours. A few minutes of movement throughout the workday can make a difference to how you feel by the end of the day.

Corporate Health Challenge:
Try the “Move Every Hour” challenge this week. Set a reminder to stand up, stretch, or walk for 2–5 minutes every hour during your workday.
Small movements. Better workdays.
