### **Topic: Screen Smart: Protect Your Eyes at Work**

Prolonged screen time can strain your eyes and sap your energy. Try these habits for better vision and comfort:

- **20-20-20 Rule:** Every 20 minutes, look at something 20 feet away for at least 20 seconds to reduce eye fatigue.
- **Blink Often:** Remind yourself to blink regularly to keep your eyes moist and comfortable.
- **Adjust Your Setup:** Position your monitor about an arm's length away and slightly below eye level for ideal viewing.

**Quick Fact:** Practicing the 20-20-20 rule has been shown to reduce digital eye strain and headaches for regular computer users.

### **Challenge of the Month:**

Set an hourly reminder to follow the 20-20-20 rule for one full workweek. Notice improvements in eye comfort and focus!
